

## POLITICAL PABULUM.

**Blaine's Hand in the Management of the Campaign.**

**Falsely Rumored Compact Between Blaine and Arthur.**

**The Question of the Folger Succession.**

**Happy Effects of the Maine Elections.**

**Brighter Prospects for the Empire State.**

**Kelly's Organs Denounce Cleveland, and Peremptorily Insist on His Withdrawal.**

**Blaine's Campaign Management.**

New York, September 14.—Blaine is coming to New York. As everybody knows, he has had personal charge of the campaign in his own state and the greatest victory there is due more than any one reason to his able and successful management. There is no better politician in the country than Blaine; no man with more comprehensive ideas of campaign management; no man with clearer or more accurate perceptions of political opportunities and none with a greater insight into the public mind. Blaine has not been entirely satisfied with the management of the republican committee; but he has not been entirely satisfied with the management of the republican committee; but he has not been entirely satisfied with the management of the republican committee.

It is also probable that President Arthur and Blaine will meet during the latter's visit here, for the president is expected to leave New York for a fortnight yet. He goes to New Jersey today to make Frelinghuysen a visit at his summer home on the Raritan river, and will then return to New York. It is expected that he will be in the city for a few days before returning to Washington for the winter.

**THE FOLGER SUCCESSION.**

You will probably hear of a new secretary of the treasury early in the week, if the appointment is not announced in the morning, for the president said today that he had about made up his mind, although he was not quite ready to give the name of his choice to the public. I don't believe any one but the president himself knows who has been decided upon, but those who have talked with him upon the subject say that Postmaster General Grosvenor and assistant secretary Conant appear to be the only ones in line.

**THE HONORABLE "FOOT."**

The newspapers are full of a bargain between "The Arthur and Blaine men," by which the president has bound and pledged himself, his heirs, and assigns, to elect Blaine president, in consideration of Blaine's placing himself to defend Arthur to Judge Folger's election in the Maine legislature, and in return for the Maine legislature's placing Blaine in the Maine legislature.

## PLOT AND INTRIGUE.

**An Interesting Narrative of Political Corruption.**

**Why "Standard Oil" Payne Was Not Nominated.**

**And New York's Governor, Grover Cleveland, Was.**

**He Sold Out the Interests of the People.**

**To Advance His Own Corrupt Ambitions.**

**Only Another Page From the Savory Record of the Democratic Nominee.**

**Special Dispatch to THE BEE.**

CLEVELAND, O., September 14.—There is a place of history in connection with the sudden dropping of Hon. H. B. Payne as a presidential candidate, and the nomination of Grover Cleveland, that has never been the light of day, and which has only recently been brought to light. It shows that Governor Cleveland's vote of the five-elevated Cleveland bill was a portion of the scheme to which he had himself, and the payment of which was no less than Mr. Tilden's support in the Chicago convention. When Mr. Payne made his speech at the Cleveland college on June 18, he virtually announced himself as a presidential candidate, and was so accepted by the country over. All his moments thereafter were made for the purpose of securing the support of the Ohio legislature, last winter he gave an elaborate speech in support of the Cleveland bill, in which he renounced himself beyond the doubts of the nation to understand that his tariff views repeated the same favor the Cleveland bill, and that he was in a position to support it.

**REMARKS OF THE BALLOON.**

PAIS, September 13.—The figure gives an account of the second experiment of the newly invented balloon steering apparatus. Captain Renard ascended at Mendon, expecting to go to Champe Elysees. He was able for some seconds to sail against the breeze, but was unable to use it for the return to his starting point. The propeller ceased to revolve after ten minutes. He descended at Marseilles.

**THE CHINESE WAR.**

FEU CHOW, September 13.—The French fleet in the harbor of Yenchow has been lying some days past. The lieutenant of the British man of war Zephyr, wounded during the Chinese and on the 12th inst., has been taken to the hospital. A Knapit day-to-day on a telegraph line.

**CHINA'S REPLY TO FRANCE.**

LEON, September 13.—A Peking dispatch to the Times says: The reply of Ding Li to the French ultimatum of July 12 declares the refusal of France to accept Amoy as a port of call, and says China is willing to submit her case to any friendly power.

**CAPTURE OF A SHILLON.**

LEON, September 14.—The Liverpool Post received news to the effect that a small steamer named Shillon, was arrested on the coast of Spain, and was taken to the port of Leon. It was found to be carrying a cargo of opium, and was taken to the port of Leon.

**BASE BALL YESTERDAY.**

AT COLUMBUS—Columbus 4, Athletics 2. AT INDIANAPOLIS—Indianapolis 4, Baltimore 8. Game called on account of rain.

**MAINE'S HANDSOME MAJORITY.**

ALBANY, ME., September 14.—The Maine legislature, tomorrow, will publish the vote of the state nearly completed from official returns. The vote of this year is compared with the gubernatorial vote of 1882. Following is the summary: Total vote for Governor, 110,135. Total vote for Lieutenant Governor, 110,135. Total vote for Secretary of State, 110,135.

**THE DEATH RATE.**

Logan, Mich., September 13.—This morning General Logan and party left Bay City on a special train for Port Huron. Along the route the party was given enthusiastic greetings. Arriving at Port Huron the party was escorted to the hotel by crowds of people.

**THE CHOLERA SCOURGE IN NAPLES.**

Special dispatch to THE BEE. NAPLES, September 14.—The cholera from Naples during the past week has been reported that lodgings in neighboring villages are obtained only at fabulous prices. Sometimes as high as 100 francs a month for a single room is demanded. The better sections of the town are deserted, and the shops in Toledo are closed at 4 o'clock in the afternoon. The streets are all shut, and many of the poorer streets are as silent as death. Even the cafes are closed, and the only sign of life is the jingle of the street vendors.

## A THREE-PLY QUARREL.

**The Projected Meeting of the Tripartite etc. Pool at Chicago.**

**A Full Review of the Present Situation.**

**The Santa Fe Demand for Concessions.**

**The Union Pacific for "Justice."**

**The Extension Bluffs of the North western.**

**Predictions That the Trouble Will Result in the Dissolution of the Pool.**

**Special Dispatch to THE BEE.**

CHICAGO, September 14.—The officers of the various western roads are beginning to arrive here to attend the meeting of the tripartite, Transcontinental, Utah, and Southwestern associations, in this city. Vice-President Callaway, of the Union Pacific, arrived Friday. President W. B. Strong, of the Atchafalaya, Topinka & Santa Fe, arrived yesterday. He says he still holds the same position regarding the troubles as given in an interview two weeks ago. The Santa Fe, he says, will enter into no new agreements, so long as the tripartite insists upon carrying out those provisions of the tripartite contract, which require the eastern allies of the Union Pacific to give the latter all their through business and allow the former to make rates over the Union Pacific on such business. The Santa Fe claims to be entitled to a share of the business from the tripartite roads at Atchafalaya and Kansas City, and says it is bound to have it. To concede to this demand, the Santa Fe would virtually abandon its right to make rates over the Union Pacific, and it is not willing to do anything in its power to do so. The Santa Fe, he says, is willing to do anything in its power to do so.

## TRADE TOPICS.

**Depressing Warm Weather - Dull Wheat - Slightly Increased Futures for the Past Week.**

**New York Special to THE BEE.**

Telegrams to Bradstreet from the leading trade centers of the country indicate that the weather which generally prevailed during the first half of the week affected unfavorably the tendency to an increased distribution of goods. In spite of this, however, the usual autumn demand has had its effect in a moderately increased movement. Reports of the progress of mercantile collections are unfavorable at numerous points. In most of the New England cotton mills, save those at Lowell and smaller ones here and there which have shut down indefinitely, are running. In consequence of the curtailment of production prices are better maintained. Leading New England cotton manufacturers still continue to be optimistic regarding the future of business and predictions given out are quite contradictory.

**AT CHICAGO.**

The Chicago correspondent of Bradstreet reports that owing to the low prices the effect of the big crop of wheat on the state of business at Chicago has not been so beneficial as expected. On the contrary the effect has been rather depressing. The price of wheat has suffered a further decline, the September option at Chicago having touched 70c during the week.

**FOREIGN ADVICE.**

Foreign advice is still bearish as to wheat. A large portion of the corn crop is past injury from frost. The iron trade has developed no improvement, and the same conclusion applies to the general iron trade. There is a slightly firmer feeling in anthracite coal, owing to the curtailment of production during the first week in September.

**THE WEEK'S FAILURES.**

There were 139 failures in the United States last week, compared with 178 in the preceding week, and 136 and 88, respectively, in the corresponding weeks of 1883, 1882 and 1881. About 50 per cent. of the failures were in the mercantile
